If we could add Rico and Camp Bird mines to the BPMD tour that would be a good use of time. Let me check on possible others.

Hi Bill, Victor and Dave – I would like to send Doug a recommended site visit plan for 2018. The sites in italics are the sites I have heard him interested in visiting. I've added some other sites but I also think we should include some BF/mining site assessment sites and maybe even some TCRAs that we are anticipating doing next summer. Please let send me other sites we should consider adding to this list for Doug to visit and possible timing. Thanks

Feb – CO Smelter

Spring – BPMD

Spring – Libby (including redevelopment opportunity at OU5), CFAC?

Summer – Sharon Steel Redevelopment

Summer – Eagle Mine – cleanup and redevelopment

Hi Sabrina – Thank you for flagging February as a possible time for Doug to visit Pueblo. I will work with Bill to send a note to Doug regarding site visits for 2018. We can one briefing for Doug and Patrick.

I'll keep you posted on Doug's attendance at the February meetings.

Thanks
Betsy

Subject: Colorado Smelter RA Briefing Planning

Hello Betsy, We have been thinking about the planning needs for Colorado Smelter going into 2018 and one of the things tentatively on the agenda is a week in Pueblo in February coinciding with the CAG meetings and follow on team meetings. So far, Monday Feb 12 is a Board of County Commissioners Meeting, the CAG is Tuesday evening the 13th, team meetings are the first half of the 14th.

We had heard that the RA and Patrick Davis are interested in touring the Site and possibly attending some of these meetings. I don't know yet if congressionals will be involved outside their regular participation in the CAG meeting, but I'd like your thoughts on timing for a RA briefing; perhaps in January. Also, would Patrick Davis attend an RA briefing or need a separate one?

I hope you have or had a nice weekend. I will be at NARPM all week, but will respond as soon as I am able if you have any questions.

Sincerely,

Sabrina Forrest
